

Area Mapper

What it is

- The Area Mapper is a great tool for mapping your customer locations with your sales areas.
- It helps you to determine which customer is in which sales area and calculates useful statistics to better understand customer distribution.

What it delivers

- Get full visibility about your sales areas on interactive maps and dashboards.
- Get new insights about your customer distribution and learn how much revenue you make in which sales area.

What are the benefits

- Save time and money through automizing standard tasks.
- Analyze your sales area on a regular basis to monitor and identify demand changes.
- Impress your customers or colleagues through professional looking maps and dashboards.
